by deleting subsection (c) of the amendatory language of Section 1 and by substituting instead the following:

(c) No information contained in the trauma registry that reasonably could be expected to reveal the identity of any patient may be made available to the public, and no information contained in the trauma registry that reasonably could be expected to disclose the identity or identities of specific reporting facilities may be made available to the public. The information submitted to the board for licensing health care facilities pursuant to this section shall be used solely for the purpose of analyzing causes and medical consequences of serious trauma and promoting the continuum of care that provides timely and appropriate delivery of emergency medical treatment for people with acute traumatic injury. Provided, however, that the specific information required by this section that pertains to health care professionals licensed under Title 63 or Title 68 or health care facilities licensed under Title 68 shall be confidential, shall not be subject to public inspection, and shall not be used to initiate disciplinary complaints nor be admissible in any administrative proceeding for licensure discipline. The board shall prescribe conditions under which the processed and verified data can be made available to the public.
